Thanks to carville for sharing the tracks at Dime.

recording:
tape recorded on the bandstand
cassette > tascam 122 mkII > cdwav > flac

from master or at worst first gen cassette recording made onstage. I did this transfer 4 years ago and kept meaning to seed it.

I believe Chris Trent was responsible for the titles and notes. personnel similar to other dates from this tour. Note Marshall's oboe, and the EVIs.

A tape from the Avreeayl collection, also marked "tape C". Fine sound quality, although Radford's sound is loud: perhaps his monitor was close by.
